CHICAGO STRIKE

HOPE THAT STRIKE IN CHICAGO WILL END SOON—SERIOUS CONDITION EXPECTED IF THINGS ARE NOT SETTLED TODAY.

Chicago, July 7.—Associated Press.—Hopes of a speedy settlement of the strike of the Freight Handlers' Union, which was declared today, is entertained by officials of the union, and members of the state board of arbitration officials of the union at conference to night told Chairman Job, of the board of arbitration that they are willing to permit employees of the different companies to meet the officials of the same to discuss the wage scale, providing a joint conference will be held at which officials of the union will be permitted to act as advisors to the men.

The arbitration board is now working on the matter in an effort to bring about a conference between the railway managers and the committees representing the men.

The sudden suspension of the customary operations by freight handlers today occasioned considerable trouble in and about the various railroads, warehouses and stations, but the inconvenience and delay is but a drop in the bucket to what will happen tomorrow and later in the week, unless the strike is settled in the meantime. The Teamsters and Truck Men's Union threaten to join the strikers in sympathy.

TRACY IN FOREST

PURSUERS AGAIN BELIEVE THAT THEY ARE HOT ON TRAIL OF CONVICT TRACEY—FIND BOAT IN WHICH HE CROSSED RIVER.

Seattle, July 7.—Associated Press.—At the extreme head of Miller's Bay the Whitehead boat which Tracy and Anderson used to carry them from Port Madison Sunday night, has been found.

In it was one pair oars. Everything else had been carried away. The boat had been pulled in from the beach and stowed away in a clump of bushes and Tracy evidently felt secure in the belief that it would not be found for several days at least.

This very fact may lead to developments somewhat earlier than any one had hoped for. Immediately after finding the boat the party discovered fresh tracks leading into the forest. Tracks of two men were plainly discernible, and there is no doubt in the minds of members of the posse that they were hot on the track of Tracy and his unwilling partner, Anderson.

The party has made its way into the dense forest, and probably will not be heard from again until late tonight.

WILL TOUR SOUTHWEST

BISBEE NINE TO PLAY IN MANY PLACES.

Baseball Club Will Travel in Special Car and Try Conclusion With Best Teams in Southwest.

The invincible baseball team which Bisbee is supporting this season, is now planning a tour of the southwest in a special car. The trip will probably be taken the latter part of this month, and teams played in all the important places between here and El Paso.

Manager Johnson said yesterday that the plans have not all been completed, but that the trip is now a certainty. He will take the same team that has this season disposed of Huachuca, Tucson, Cananea, and El Paso in rapid succession. The boys are all doing steady, consistent work, and could not be improved upon outside of one of the minor leagues.

Challenges have been sent to no less than eight teams, all of which are expected to consent to play match games. Some of the towns now have strong teams that will give the locals a hard rub. Among the teams that have been communicated with are El Paso, Deming, Silver City, Lordsburg, Clifton, Morenci and Albuquerque.

The team will travel in royal style, having a special car exclusively for their use. While stopping in any of the towns to engage in a game, they will use the car as sleeping apartments.

"We are ready to play any of them," said Manager Johnson yesterday, "that are in this part of the country. The boys have not really had a try-out that put them to their limit. We will not start out on this series expecting to win everything, though I cannot see why the team should not return with a large bunch of scalps."

From Harbin Springs, where Jeffries is training, and from Skaggs Springs, where Fitzsimmons is preparing for the last struggle, comes report that both pugilists are bending to work with increased zeal, and since the momentary relaxation of July 4 they have been early on the highways for the gymnasium where the trainers put their skill against that of the fighters.
